

CabinTM

Cozy and clean homes

Our Mission

We hope to bring:

- Well designed
- Economical
- Green

homes to everyone

The problem

Most of the living rooms in our cities:

But we can live much better: cozy, clean & green

Our solution

By providing beautiful & customized room designs to help people live in a green, economical, clean way;

Step 1

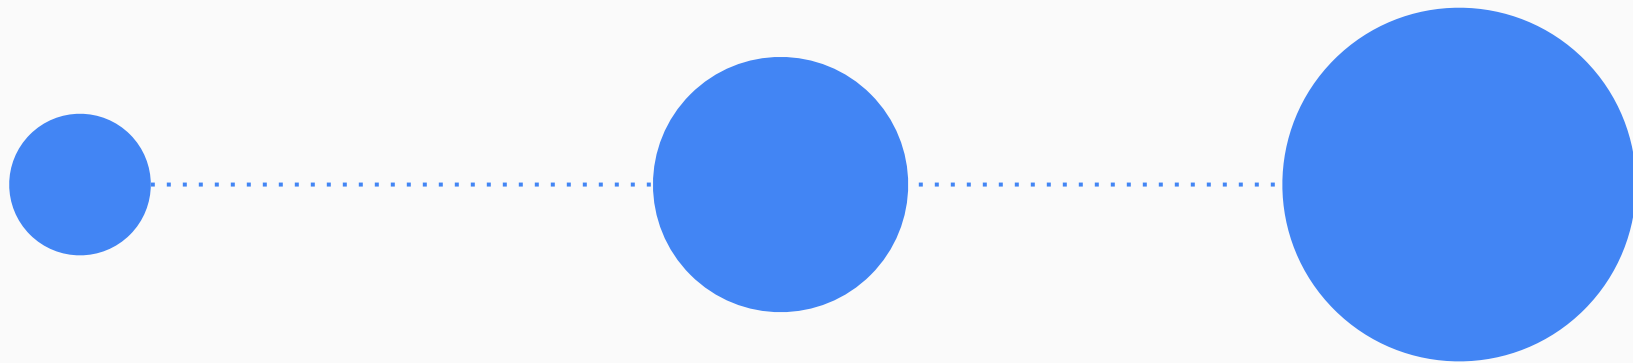

We will build a suppliers and logistics echo system

Meanwhile

We will build the indoor design team, and also build an app for people to search for designs and rooms

Then

We will launch our app, build our brand, starting from Shanghai

Market Analysis

- There are around 24,000,000 people living in Shanghai;
- There are many young people coming and leaving;
- We believe there is really a lot to improve for most living rooms in Shanghai;
- Every individual deserves a well designed and clean home, while most house owners simply don't have such motivation;

A top-down view of a white ceramic cup filled with a latte, featuring a detailed white leaf-shaped latte art design. The cup sits on a matching white saucer, with a silver spoon partially visible on the left. The background is a dark, textured surface.

Competitors

Ikea: Ikea provides economical, green & elegant home designs, from which we can really learn a lot.

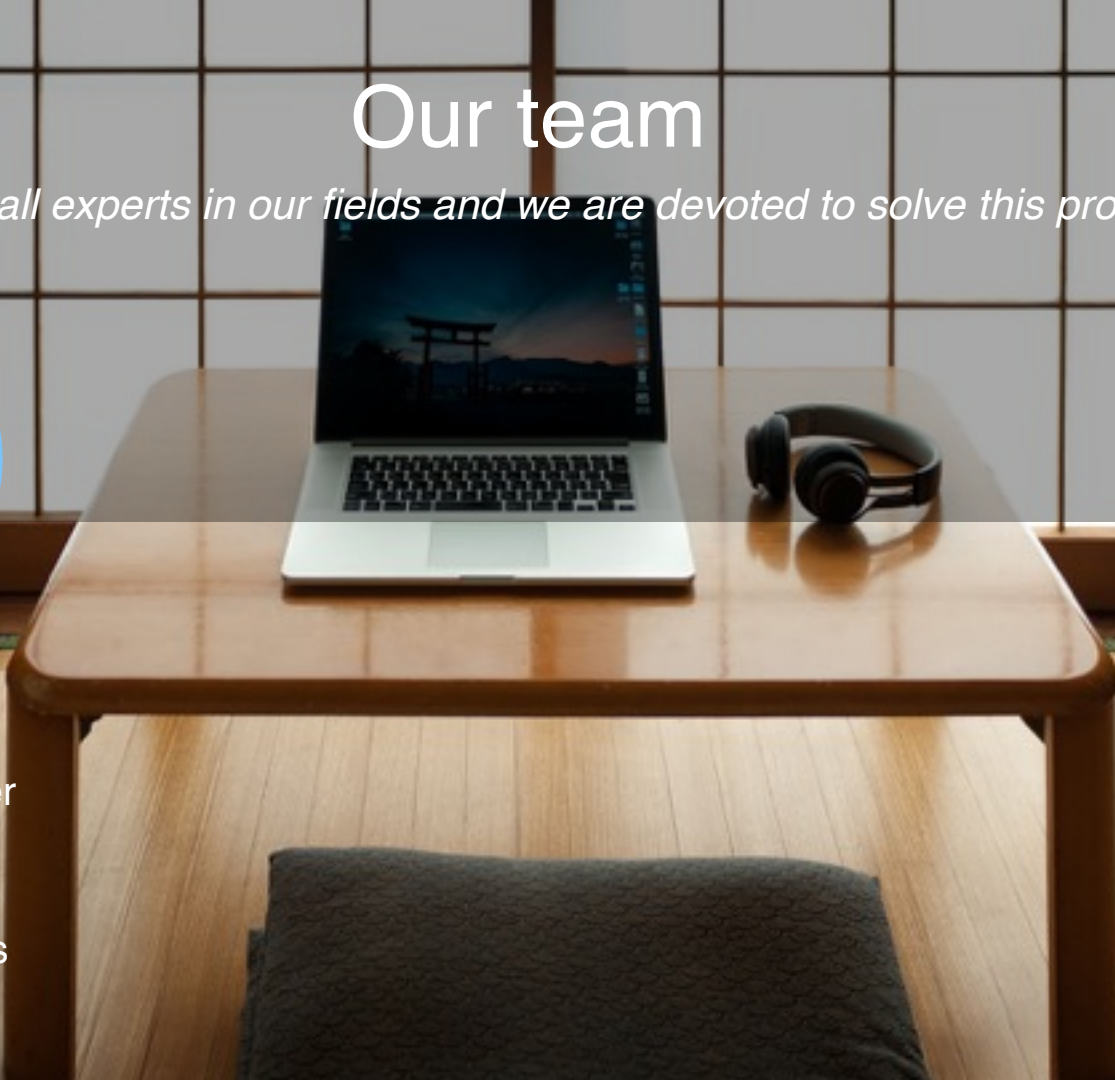

Our team

We are all experts in our fields and we are devoted to solve this problem
